Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I: Claims 1-28, drawn to a system and method of building a custom word list for use in text operations on an electronic device by scanning a collection of text items to identify words and assigning a weight to each identified word.

Group II: Claims 29-42, drawn to a system and method of processing a custom word list for use in text operations on an electronic device by mapping each word to a keystroke sequence on the electronic device.

Group III: Claim 43: drawn to a method of using a custom word list in text operation on an electronic device by accessing the custom word list to identify words representing variants of the inputs.

Group IV: Claims 62-70: drawn to a method of maintaining a custom word list on an electronic device.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions Group I, Group II, Group III and Group IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group I has separate utility such as a system and method of building a custom word list for use in text operations on an electronic device by scanning a collection of text items to identify words and assigning a weight to each identified word while invention Group II is a system and method of processing a custom word list for use in text operations on an electronic device by mapping each

Art Unit: 2165

word to a keystroke sequence on the electronic device, Group III is a method of using a custom word list in text operation on an electronic device by accessing the custom word list to identify words representing variants of the inputs, and Group IV is a method of maintaining a custom word list on an electronic device See M.P.E.P. ' 806.05(d).

Because these inventions are distinct for the reasons given above, therefore, restriction for examination purposes as indicated is proper.
